WHO WE ARE

A diversified engineering supplier with water access at the center.

Xpedite Engineering PLC is primarily focused on water well drilling support, clean drinking water solutions, and water supply systems. The company also operates in import, wholesale trade, mining, electromechanical equipment supply, and construction-related materials.

Through an integrated business portfolio, XPEDITE serves water drilling companies, construction firms, mining operators, agricultural businesses, infrastructure projects, industrial clients, and institutional buyers.

Vision

To become a trusted and leading company in water well drilling support, clean water supply solutions, import, mining, and industrial supply.

Mission

To provide high-quality water well drilling materials, steel casing pipes, drill bits, bentonite, generators, electromechanical equipment, mining products, and construction materials.

Core Values

01 Quality	02 Reliability	03 Integrity	04 Safety	05 Sustainability	06 Customer Focus
---------------	-------------------	-----------------	--------------	----------------------	----------------------

PRIMARY FOCUS AREA

Water well drilling support and clean water supply inputs.

Water well drilling and water supply are the primary focus areas of XPEDITE. The company supplies essential materials and equipment used in borehole drilling, clean drinking water projects, irrigation water access, and community water supply systems.

Steel casing pipes

Drill bits

Bentonite

Borehole support materials

Water supply project inputs

APPLICATIONS

Clean drinking water, boreholes, irrigation, institutions, communities, contractors, and infrastructure projects.

PRODUCT EVIDENCE

Materials that support borehole drilling and water supply projects.

Steel casing pipes

Drill bits

Bentonite

01

Clean drinking water projects

02

Rural and urban water supply

03

Irrigation and agricultural access

04

Institutional and community water systems

GENERATORS & ELECTROMECHANICAL

Power and water-system equipment for projects and operations.

The company supplies generators and electromechanical equipment for water projects, construction sites, real estate developments, industries, farms, institutions, and infrastructure projects.

Diesel & petrol generators

Backup, portable, and industrial power.

Pumps & motors

Water system and infrastructure support.

Control panels

Electrical control and system operation.

Fittings & machinery

Mechanical, electrical, and industrial components.

GOLD MINING

Responsible gold resource development with safety, compliance, and operational discipline.

XPEDITE's gold mining activities should be presented as a controlled resource-development capability, supported by legal compliance, safe site practices, quality control, and partnerships with licensed stakeholders.

Exploration & extraction

Gold exploration, extraction support, and controlled site development.

Processing support

Handling, sorting, processing support, and quality-control workflows.

Compliance readiness

Licensed-stakeholder partnerships and legal operating requirements.

Safety focus

Worker protection, responsible equipment handling, and site discipline.

COMMERCIAL SCOPE

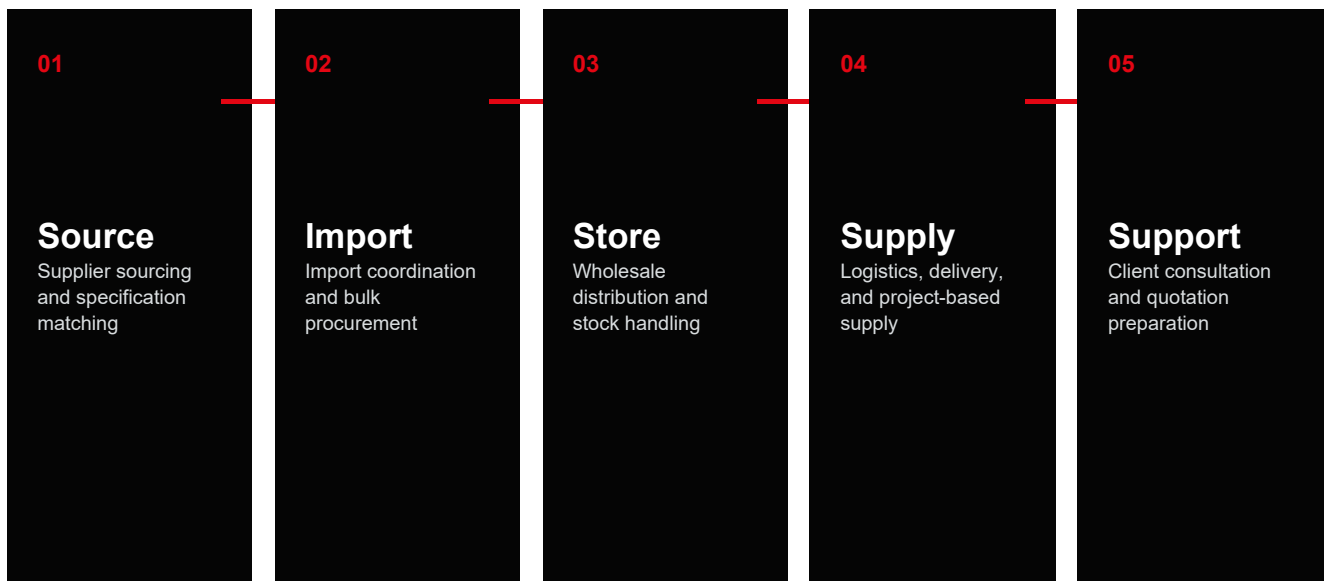

A broad supply platform serving water, construction, industrial, mining, energy, and agriculture.

CATEGORY	PRODUCTS / SERVICES	TARGET CUSTOMERS
Water Well Drilling	Steel casing pipes, drill bits, bentonite, drilling materials	Drilling companies, water projects, contractors, NGOs, government projects
Import & Wholesale	Metals, non-metals, steel, pipes, construction inputs	Contractors, manufacturers, wholesalers, retailers
Power & Equipment	Generators, pumps, motors, control panels, fittings	Businesses, farms, institutions, engineering firms, infrastructure projects
Mining	Gold, coal, development, property and construction support	Licensed buyers, investors, developers, industrial and energy users

Water Projects	Construction	Mining	Agriculture
Energy	Industrial	Infrastructure	Real Estate

OPERATING MODEL

From sourcing to supply support, Xpedite is structured around practical project delivery.

HEALTH, SAFETY & ENVIRONMENT

Safe operations and responsible resource use.

XPEDITE is committed to safe working practices, proper equipment handling, regulatory compliance, environmental awareness, and the protection of workers and surrounding communities.

Safety

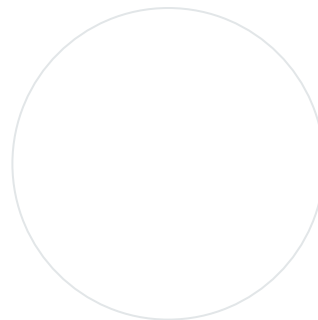

Compliance

Environmental awareness

Responsible operations

PARTNERS & CLIENTS

Trusted relationships across water, supply, aviation, construction, and infrastructure.

XPEDITE works with suppliers, distributors, contractors, public and private project owners, water project implementers, and institutional buyers to deliver reliable products and practical project support.

AI **Advance ISPAT India**
International steel and industrial supply relationship supporting pipe, steel, and material sourcing.

OC **Oromia Construction Corporation**
Construction and infrastructure partner/client reference for project-based supply opportunities.

DAT **DAT**
Local business and property relationship connected to XPEDITE's Addis Ababa head office presence.

AW **Atlas Waterwell Drilling**
Water well drilling sector relationship aligned with borehole materials and drilling support inputs.

EA **Ethiopian Airlines**
Institutional client/partner reference demonstrating service reach into large national organizations.

TI **Tis Isat Water Works PLC**
Water works partner/client reference connected to clean-water, water supply, and project implementation needs.

CC **CCECC**
Infrastructure and construction-sector relationship aligned with major contractor and project supply needs.

MANAGEMENT AND ORGANIZATIONAL TEAM

Leadership focused on supply reliability, operations, finance, and administration.

01

Founder / General Manager

Name: Eng. Nathan Gzachew

Role: General Manager

Profile: Owner, Co-Founder, and General Manager of the company.

02

Deputy General Manager

Name: Mr. Dawit Tenaye

Role: Deputy General Manager

Profile: Owner, Co-Founder, and Deputy General Manager of the company.

03

Finance Director

Name: Mrs. Tigist Altaye

Role: Director of Finance

Profile: Director of Finance and Accounting, with more than 20 years of experience.

04

Administration Manager

Name: Mrs. Emeye Asres

Role: Head of Administration

Profile: Head of Administration, with more than 21 years of experience.
